Scott,

Following our conversation earlier today regarding [399 Union Street](#), I wanted to put the fire department's recommendations in writing. In the past, we have responded to multiple buildings in town including Dunkin Donuts, for vehicles that have driven into the front of the building. With this increasing trend, the fire department recommends some sort of Safety Protection (Bollards) or barriers, in front of the parking spaces at the front of the building. We feel this would add an additional line of protection for both the occupants of the Starbucks, and pedestrians.

Thanks you

Capt. Moraghan
