Re: T-Mobile Installation on Cedar Peer Review #3

Dear Mr. Small,

We are writing this letter to report our findings from our third peer review of the T-Mobile Wireless Communications installation at the Cedar Street water tank site in Ashland MA.

We have received a set of revised plans submitted by Prince Lobel Tye LLP on behalf of T-Mobile, on December 13, 2023, via email from Peter Matchak of the Ashland Planning Department. The drawing set contained twelve (12) drawings with a revision date of December 12, 2023, and entitled "Site Number: 4BS0539A Site Name: BS539/Cedar Street WT-RFP". We also received a letter from the T-Mobile structural engineer addressing the structural integrity of the tank.

It is our understanding that the Ashland Planning Board is awaiting the completion of our peer review prior to their approval of the project.

Drawings Review

We have confirmed that all of our recommendations in our December 12, 2023, letter were included in the revised set of drawings. There are no open items regarding the drawings, and they appear to be in accordance with the lease agreement.

The letter from the structural engineer confirmed the T-Mobile installation will not negatively impact the structural integrity of the water storage tank. There are no open items regarding the structural analysis of the T-Mobile installation.

If in agreement, please notify Peter Matchak of your decision. We have also carbon copied Peter on this letter.

If you have any questions regarding this letter, please feel free to contact our office. If you agree, the letter can be passed on to the applicant.

Sincerely,

Haley Ward, Inc.

Gregory J. Eldridge, P.E.
Vice President - Senior Project Manager
