Jasmin-

We are writing to respectfully request an extension to the public hearing for the above referenced site to November 13th. Have to further correspondence with our client, they have decided to move forward with a paved parking lot. We are in the process of revising the plans and the stormwater management analysis to accommodate they paved parking. In addition, the plans will reflect changes as a result of the GCG peer review. Our goal is to get revised plans and storm water report to the town and GCG within the next couple weeks. We understand that the board is meeting on October 23rd. If you would like our team to come before you with an update, we can certainly do so.

Thank you for your continued communications and cooperation and we look forward to seeing you and the Board.

-Wayne
