To: Luibil, Michael (DCR) <michael.luibil@mass.gov>

Thank you for the update Mike!

Eversource has been in contact with us and are proposing several trees in the ROW along that stretch as well. With any luck our Planning Board will approve the work on the scenic road and things can move forward.

I will include your email in the record for that hearing, in case the Planning Board has any questions related to DCR's opinion.

Good Morning Becca,

Keeping you updated in the event you have inquiries regarding this.

Eversource had contacted me regarding request for approval to remove high risk DCR trees they identified along Cross St and Howe st.

I met with the arborist yesterday to view the trees. I let Eversource know didn't have any objections to them removing the identified trees if they were confirmed on DCR property.

Sincerely,

Mike Luibil
